

# Uber for Business

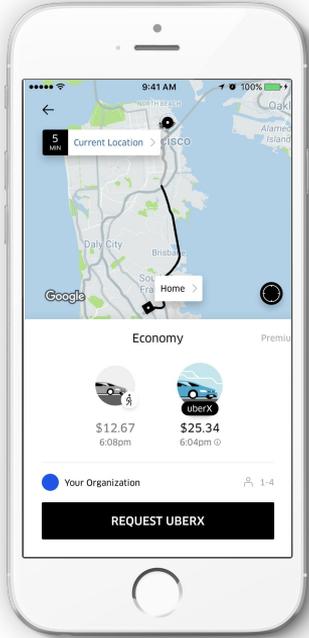

Our mission

**We ignite opportunity by  
setting the world in motion**

# Uber 1-0-1

A technology platform evolving the way the world moves.

1

## Request

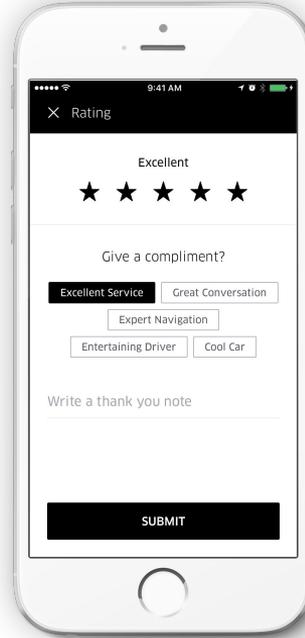

Set your location and get an estimated arrival time and fare estimate before booking.

2

## Ride

View driver information like make, model, license plate and ratings before the car arrives.

3

## Rate

Instant two-way feedback keeps quality high. You'll also receive an email receipt after every trip.

# 14M Uber trips happen every day

700+

Uber is available in more than 700 cities globally.

60+

Uber is available in over 60 countries across six continents.

3M

We have over 3 million active drivers globally.

14M

Around 14 million Uber trips happen each day.

# The same Uber, now to move your business.

The image illustrates the integration of Uber's business capabilities. On the left, a smartphone displays the Uber app interface for a business account, showing a map of San Francisco with a route to Transamerica Pyramid. Below the map, three ride options are listed: Economy (Affordable rides, all to yourself) with sub-options Express Pool (\$4.86, 4:53pm), Pool (\$5.72, 4:55pm), and UberX (\$11.26, 4:44pm). The account is billed to Acme Corp. and a 'CONFIRM UBERX' button is visible.

On the right, a laptop displays the 'Uber for Acme Co' dashboard. The 'Activity' section shows a list of trips. The selected trip on 01/26/17 at 07:53am by Sylvia Carr to San Jose is detailed below. The fare is \$40.64. The trip includes a map showing the route from San Francisco to Daly City. The detailed trip information includes:

- Fare:** \$40.64
- Trip ID:** A480FA9F
- Trip Time:** 00:22:36
- Miles:** 7.90
- Start:** 12:30 PM, 732 Lawton Street, San Francisco, CA (Expense Code: GENTRAVEL)
- End:** 12:52 PM, 1234 El Camino Real, Colma, CA (Expense Memo: Dropping off Sam at the BART station)
- Notes:** Expense code updated from "CLIENT" to "GENTRAVEL", Expense memo updated from "Dropping off client" to "Dropping off Sam at the BART station", Trip Flagged.

The activity table below shows other trips:

Date	Time	Employee	Location	Service	Amount
01/26/17	07:53am	Sylvia Carr	San Jose	Travel	\$40.64
01/25/17	01:46pm	Beatrice Morales	Sao Paulo	Travel	\$R31.49

# Great for employees

## **Effortless expensing**

Eliminate the need for travelers to submit Uber receipts. Leverage expense codes and in-app prompts.

## **One global app**

Travelers can use the same Uber app around the world, without worrying about language or currency barriers.

## **Safety and support**

Uber support is available 24/7, and our safety technology helps put peace of mind at your traveler's fingertips.

# Effortless management

## **Your travel hub**

Manage employee access, programs, billing, and more—all from one dashboard.

## **Built-in flexibility**

Build custom programs for your teams, and access features to request or sponsor rides with Uber.

## **Custom reports and exports**

Exportable data and custom reports deliver actionable insights.

# A new level of visibility

## **Unlock new levels of detail into how your business moves**

### **Visibility into every work trip**

See and search for specific information via the business dashboard.

### **Access custom reports and exports**

Exportable data and reports deliver actionable insights to guide travel program decisions.

### **Quarterly business reviews**

For larger clients, understand the things that matter to your business, such as usage, cost savings, and more.

# Uber for Business

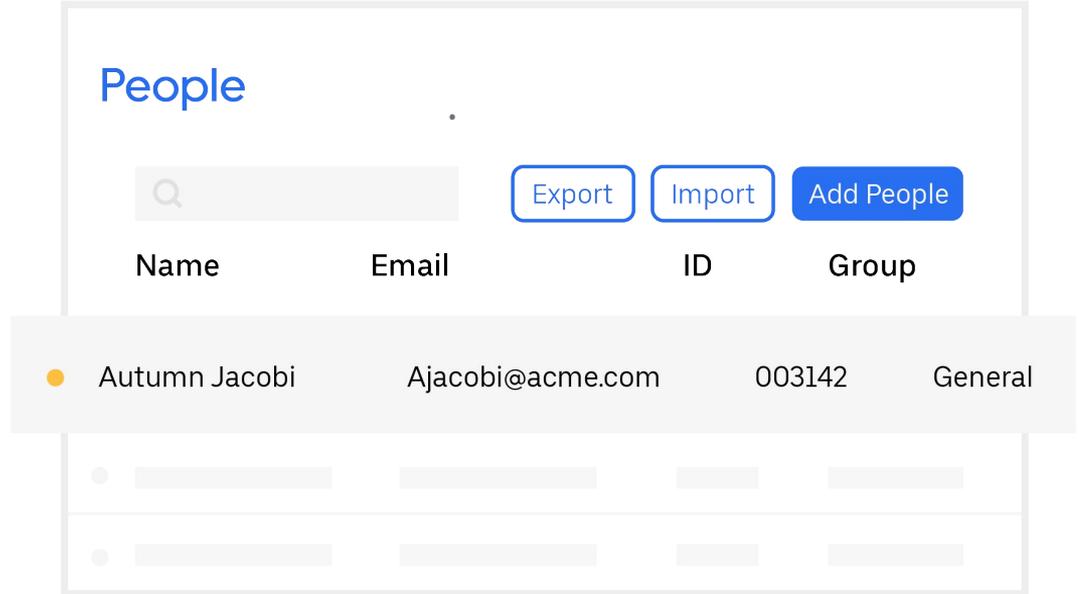

Selected features

# Invite the whole team

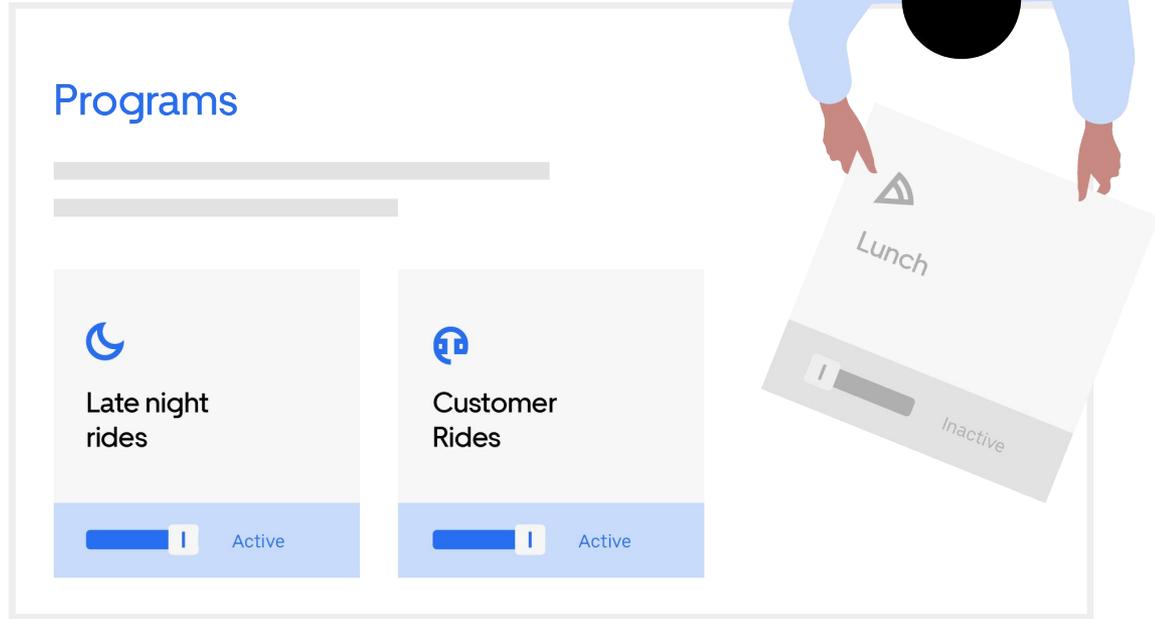

Add, edit, or remove people individually, or by CSV upload through the **People** tab.

Connect via SFTP for further automation.

# Customize for your company

Use the **Programs** tab to create individual programs for different Uber usages at your business.

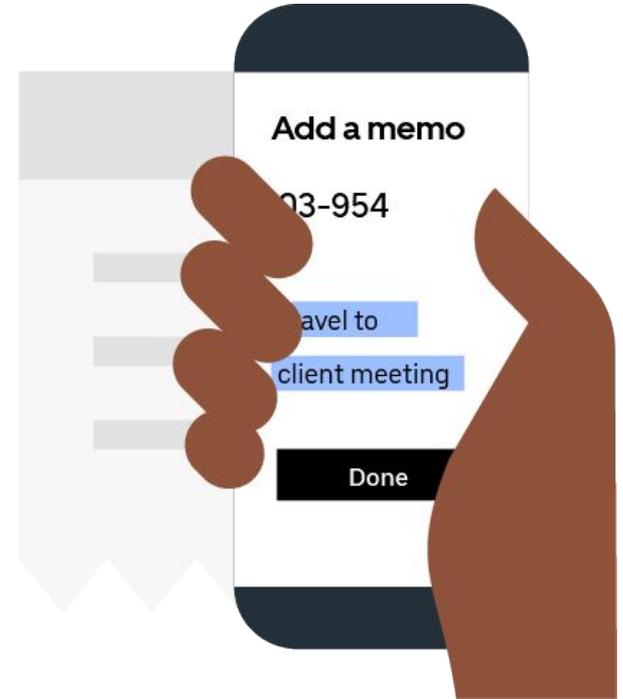

# Additional tracking for every trip

## Expense codes to prevent misuse

- They can be manually required or optional, and turned off for different usages.
- Enter or upload a set list, or allow custom expense codes.
- Integrate with existing expense code management via SFTP
- Allow trip memos for further details.

# Technology to improve compliance

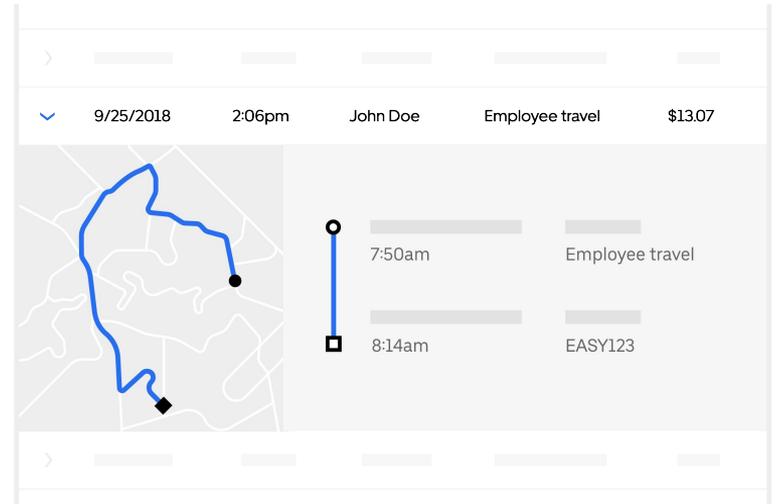

**Our technology keeps watch so you don't have to.**

**Profile recommendations:** Predicting which payment method should be used based on the trip.

**In-built rules:** Set parameters around Uber usage, such as vehicle class, location, and more.

**Trip flagging:** Request more information on specific trips.

**Manager receipt review:** Assign team members to get weekly summaries of Uber trips, right in their inbox.

# Set-and-forget policies

**Create custom programs for powerful new ways to use Uber.**

**Spend Allowance:** Specify how much of a trip is covered.

**Trip Allowance:** Set the number of trips that are covered per day or per month.

**Location:** Select any required pick up or drop off locations.

**Time:** Permit rides on certain days or times, like during commute hours on weekdays.

**Vehicle:** Allow your employees to ride in preferred vehicle types.

**Location**

Between permitted locations

**Spend allowance**

USD 20

**Expense code**

Yes, required  Not required

# Business billing

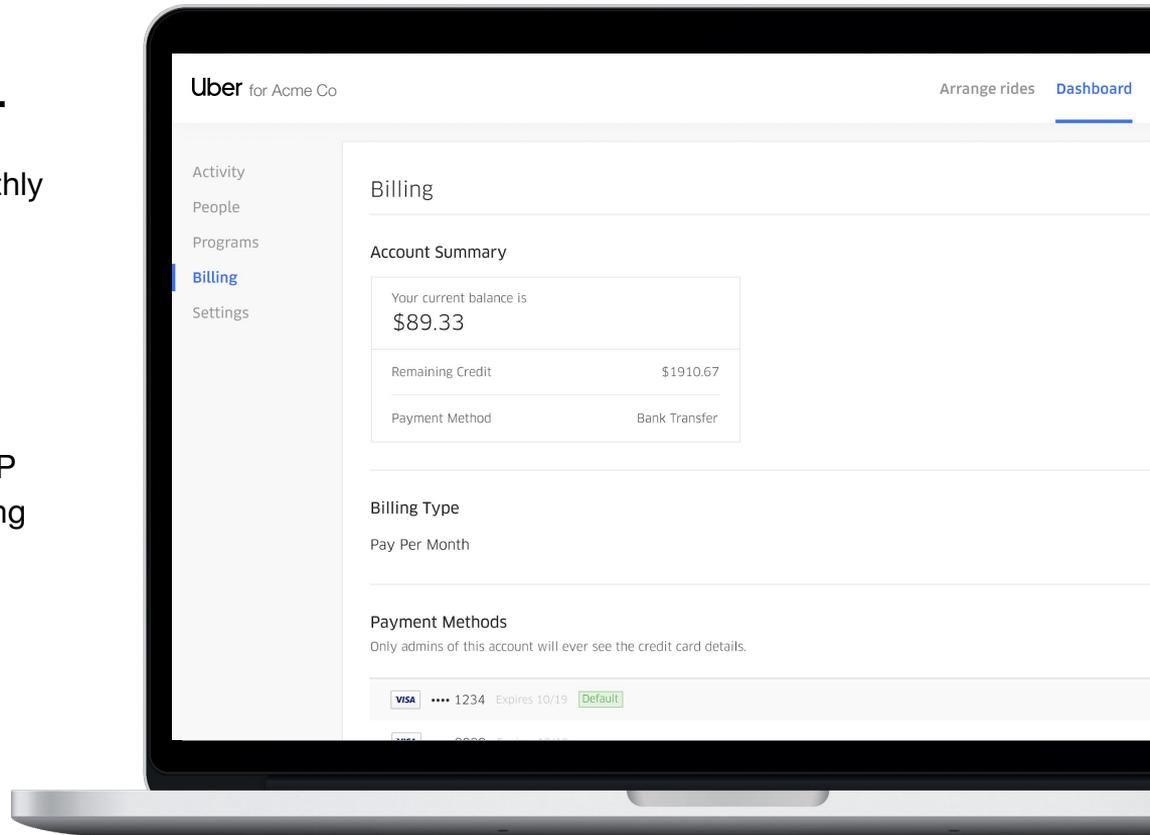

**Integrated billing for ease of integration.**

**Monthly billing:** Pay for company trips on a monthly basis.

**One payment method:** Eliminate the need for employees to wait for reimbursement.

**Expense provider integration:** Integrate with SAP Concur and others to enable trip receipt forwarding for faster expensing.

**Monthly statements:** Simplify paperwork with monthly statement showing all Uber trips in one place.
